OUTSIDE ACTIVITIES	<p>Outside of school I have met up with my friends a couple of times. We have been to Karaoke bars, ramen bars and game arcades. They have also been showing me around Nagasaki and teaching me about how to use the trams and buses.</p> <p>I have also been borrowing books from the library, Japanese text books and also some basic children's books in Japanese.</p> <p>School: At the moment school is pretty good. Izumi-sensei has helped me with a timetable which basically allows me to pick up and drop subjects whenever. When I don't have any subjects I am studying Japanese in the Library so I think that works out pretty well.</p> <p>I am part of the Kyudo Club and they meet every day after school and also on weekends. That is going pretty well and I like the people who do that.</p> <p>Home: I am currently living with the Okuyamas. They are really nice and we have gone to the Bio Park, Tokyo, Nagasaki Lanturn festival and also some other places. They have also been really good with helping me learn Japanese, they have been trying their best when it comes to explaining words and phrases and they have also been helping me learn Nagasaki-Ben.</p>		

Language study	<p>I am now going to a weekly Japanese class every Saturday. I have only gone once so I can't say much but from what I can tell it will be good.</p> <p>I feel like my Japanese is gradually getting better. I personally don't feel a difference but everyone says that I am improving so I am happy about that.</p>
